

Dear Mr James Fox,

Today, GreatSchools.org announced the winners of our [College Success Award - Gold](#), a new, elevated distinction given to high schools that have won at least two prior College Success Awards. Gold awardees have multiyear track records of preparing students to enroll and succeed in college.

Congratulations to [BERRYHILL HS](#) for being one of only 1,770 public high schools to win the inaugural College Success Award - Gold! [Learn more](#) about the Gold Award.

Starting today, we invite you to share the news of your Award with your community. We created a [celebration toolkit](#) with social media posts, newsletter copy, a sample press release, and more to help you spread the word about your success!

As an Award-winning school, you receive the following benefits:

- A College Success Award badge on your school's [GreatSchools.org profile](#).
- Inclusion on the list of winning schools within your [state](#).
- Access to 2021 College Success Award customizable banners and window decals, which you can order directly from the College Success Award [VistaPrint shop](#).
- Inclusion in GreatSchools' outreach to policymakers, administrators, and journalists.

As a nonprofit dedicated to providing parents with the necessary information to help their child succeed, it's our honor to highlight these bright spots in education

across the country. **Please note that everything in the [toolkit](#) is free.** We have formed a relationship with VistaPrint to allow schools to order modestly priced banners, for which we do not receive any compensation.

We hope this recognition provides a bit of good news worth celebrating. Congratulations again on your dedication to preparing students for postsecondary success!

Please [let me know](#) if you have any questions.

With appreciation,

Carrie Goux
EVP, Strategy & External Affairs, GreatSchools.org

COLLEGE SUCCESS AWARDS MINI-DOCUMENTARIES

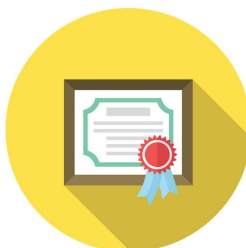

Culturally responsive teaching is... good teaching

From helping kids relate to their schoolwork to limiting bias, learn how teachers are designing lessons to support all students. [Watch now.](#)

Teaching innovations that will outlast the pandemic

During the pandemic, educators found amazing ways to reach students. Some of those innovations are so great, they're here to stay. [Watch now.](#)

What is early college high school?

These public high schools give students the opportunity to complete up to 2 years of college while still in high school. [Watch now.](#)

The power of giving students voice and choice

When students get a say in what they learn and how

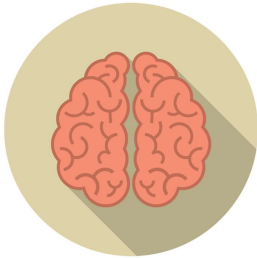

to show it, they become more deeply involved in their education. [Watch now.](#)

Tracking each student's path to graduation

Learn how this high-performing high school works with every student on a 4-year plan and uses data to track each student's progress. [Watch now.](#)

What if all students got accommodations?

Legally, all kids with learning disabilities get accommodations, such as extra time on tests or access to audiobooks. This innovative school gives them to all students. [Watch now.](#)
