

BERRYHILL MIDDLE SCHOOL

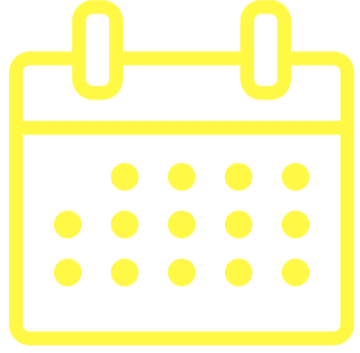

2020-2021 STATE TESTING

LOCATION

Students need to report to the **library** by 8:00 AM. Students will NOT go to athletics before school or first period.

MASKS

All students must wear their mask during testing. Students will also be socially distanced.

A/B SCHEDULE

Students will follow the A/B schedule from earlier this semester to determine their testing days.

For example: All students will report to school on April 19th, but only the "A" group will test on that day. "B" group will test on the 20th.

BVA STUDENTS

All BVA students will test on Wednesdays.

If you are unsure which group your student is in, refer to the A/B schedule email you received earlier this semester or contact the school.

BREAKFAST

Diet is important when it comes to learning. Students need "brain food" to keep the mind sharp, attention span up, and be cognitively flexible.

Good breakfast choices include eggs, nuts, yogurt, cottage cheese, whole-grain cereal, low-fat milk, toast with jam, oatmeal, etc.

SLEEP TIPS

Getting enough sleep is essential when it comes to mental stamina. Being tired makes students passive learners, meaning they will only learn less.

To maximize how long students learn or how well they learn, they need to get the recommended hours rest.

Getting a good night sleep could positively affect a student's grades as they will be more energized and motivated to concentrate.

TESTING CALENDAR
